LOCAL MINING REVIEW.

For the week ending September 14.

During the past week nothing of very great importance has transpired as far as we have heard in the mining interests of Ely District. One more Pioche incorporation has been effected in San Francisco, under the title of "Chief East Extension," and we have every belief that it will prove itself to be equal to the Chief of the Hill and other good mines adjoining. Ely District stocks have advanced some, but the market does not present as bright an aspect as is desirable; yet wise people predict that exciting times will show themselves within the coming month relative to Pioche mines. It would not be strange if such should happen, as the mills are kept running night and day.

Within the last week Wells, Fargo & Co. have shipped \$153,368.92 in bullion. The Raymond & Ely mine, the king pin of this district, furnished its regular amount each shipment. The bullion is not this dark, base-looking metal which characterizes Utah, but has the pure silver appearance, with a fineness of 960 to 965. The Meadow Valley Company does not, of course, at present turn out bullion in as large quantity as the R. & E., but it still keeps driving ahead, and some very favorable discoveries have been made recently. Every other day this Company ships from twelve to fifteen thousand dollars worth of bullion. M. F. Tarpey has been appointed Superintendent of the Meadow Valley, vice Capt. Day, resigned. We are glad Mr. Tarpey has been so fortunate, for he is a most deserving young man, who has served the Company faithfully in other capacities, and shown himself fully fitted for the position of Superintendent.

There are many claims mentioned in this Review which give promise of becoming great mines, from the fact that they have well-defined veins in sight, with ore assaying from \$100 to \$2,000 per ton. Much of this ore would be taken out were there sufficient mills to reduce it.

The Floral Mill and Mining Company, J. C. Clark, Superintendent, and J. D. Hudgin, Millwright, is progressing finely with the grading and preparations for the erection of the mill at the earliest possible moment. Yesterday morning the shipment of the machinery at that place. The mill will be a 20-stamper, and it is said the machinery is as fine as any ever turned out on the Pacific coast. It is from the Hudson Iron Works, San Francisco. The necessary lumber for the mill will soon be on the site, which is about a half mile from town, just below the Masonic burying ground. The location is one of the very best that could have been chosen. As soon as the lumber arrives the millwrights will commence work, and it is confidently expected to have the mill in running order by the 1st of December. Great then will be the joy of the poor miners, many of whom have good mines and rich ore that will bring them money when they can get them worked. The Floral Company is fortunate in having such an experienced and efficient millman as Mr. Clark at the head of its affairs, and our miners will find him courteous and upright under all circumstances, and a liberal gentleman to deal with.

Below we give a graphic description of the workings, etc., of as many different mines as the crowded state of our columns will admit of at this time:

**CHIEF EASTERN EXTENSION.**—This mine was incorporated in San Francisco a short time ago. There are 30,000 shares in the mine, 5,000 of which were placed on the market to realize a working capital; and owing to the favorable report given of the mine by Capt. Hardy, who bears an excellent reputation in San Francisco, the entire five thousand shares were taken up in two days—Capt. Hardy being made Superintendent. For general information, we will give the exact location of this mine, and the circumstances under which it was made. When the Chief of the Hill was located, it was proposed by some of the owners to divide the mine into two parts: one to be the Chief of the Hill to take 800 feet west, and the Chief Extension to run 1,200 feet east from the discovery hole. Their attention and general work were first placed on the Chief of the Hill, of which they made a most decided success, and all of them will probably come out with a very little fortune. The Chief Eastern Extension has now reached a depth of 60 feet, with a splendid showing, the ledge coming in thick in appearance and of the same character as the Chief of the Hill. Three shifts are being worked, and it is believed rich developments will be made within thirty days.

**COSTER.**—This mine has never been brought to notice. The favorable appearance it presents at this time compels us to give it space in our review. It is situated over the saddle on the old road to Bullionville, going by the way of Panaca Flat. The owners are C. H. Light, Frank Wheeler, John Cahill and a Hungarian gentleman, whose name we could not learn. The shaft is down 56 feet, with very fair ore in sight. The owners feel confident that they will be able ere long to cry in loud tones throughout Pioche, Eureka!

**LOCUS.**—The work of this Company is still concentrated on the Anna Dickinson. At the depth of 85 feet drifts are being run east and west on the ledge. The east drift has been run in about 30 feet, and shows first-class ore. The west drift is beginning to look well. Great expectations are indulged in, and there is no doubt from the looks of the drifts now that they will be realized. Mr. Dayton has charge during Superintendent Wilson's absence, and is putting forth his best efforts.

**IVANHOE.**—Depth of shaft, 275 feet, vertical. It is confidently expected that in 25 feet more the ledge will be struck, which was left 75 feet above, where it dips down the hill. Mr. Craigie, the foreman, and a first-class miner, states that he has not within all his experience seen any better mine, taking a general prospect view, than the Ivanhoe. He has worked the mine in tip-top order, and everything around and about it looks healthy. The new working shaft is now down 135 feet, and within the past week fine ore has been struck. Mr. Duff, the Superintendent, has gone to San Francisco to purchase and attend to the shipment of hoisting machinery, and thus add another to the great improvements already being made in this district.

**PEAVINE.**—This mine has improved greatly within the last two weeks. The drift at first level (85 feet down) carries the entire distance, assaying as high as \$450 to the ton. The drift at the 2d level (125 from the surface) begins to look well, and in a few feet more will no doubt strike the ledge that shows in the upper drift. Over 100 tons of good ore is on the dump, and Mr. Dayton, the Superintendent, is sanguine of an immense strike before many days.

**PACIFIC TUNNEL.**—This tunnel is now 285 feet in length. Mr. S. R. Nichols, the Superintendent, is pushing the work as rapidly as possible, but the rock in the face of the tunnel is very hard at present, which will probably take two or three days to get through, when, it is thought, a large vein will be struck that will help the stock of the company very materially.

**ARKANSAS.**—The ore in the east and west drifts, at the 250-foot level, continues the same. The Superintendent is still sinking the incline on the ledge, which improves in appearance daily. Milling facilities are needed for this mine, which is now yielding ore enough to employ ten stamps; and it is a matter that should receive immediate attention, as at present there is no way in which the ore can be reduced.

**ATROC.**—This mine still progresses. The shaft has now reached a depth of 150 feet, and the prospects are very favorable. Major C. D. Fitzhugh, the Superintendent, will leave for San Francisco very soon to make arrangements for hoisting works. The mine has been placed in first-class hands, and the probability is that it will soon be numbered among the great producers of this camp.

**PIOCHE PIONEER.**—The work on this mine is in the working order. Still sinking on the ledge, which continues to improve. The new working shaft is now down 35 feet. So far the sinking has been comparatively easy, and everything looks favorable. We are in hopes Capt. Hardy will make his fortune out of this mine, and he will, if perseverance is rewarded as it should be.

**MAMON.**—The work on this mine is being done principally in the drift at the 25-foot level, from which fine ore is being taken in large quantities. Next week the sinking of the shaft will be resumed and continued. The prospects of this mine are No. 1, and they hope soon to strike the same body of ore which the American Flag and the Arkansas did at the 250-foot level.

**PIOCHE CHAMPION CO.**—This company has been basely engaged all the week timbering the main shaft, fencing in ground, altering shaft house, cleaning up shafts, etc. All will be ready to commence sinking to-day. Mr. Wattles, the Superintendent, says he is waiting to make things lively when he gets a fair start.

**KENTUCKY RIFLEMAN.**—The sinking on this claim is going on rapidly, the main shaft being down about 60 feet. The ledge has widened out to four feet, and is improving rapidly. The present contractors are sanguine of striking mineral in another 50 feet.

**MOCKERS BROS.**—Quite an important strike was made in this mine during the past week at a depth of 113 feet. The pay streak is about one foot wide and assays \$133.12 per ton. The mine is looked upon very favorably here by all parties.

**MAGNIE.**—Depth of shaft 170 feet. Drifting on the ledge with good ore in sight. The prospect is generally good. Will give a more extended notice of this mine in our next review.

**WASHINGTON & CREOLE.**—The hoisting works of this company are in position and will be covered by Monday night. The machinery will be given a "trial trip" on Tuesday.

**CODRON.**—North drift is being rushed very rapidly and is looking well with good ore across the face of the drift.

**STERLING.**—Work progressing as usual with good prospects ahead.

**PRESIDENT.**—The miners and millmen of the Meadow Valley Company, having resolved to present to Capt. Day, late Superintendent of that Company, a testimonial of their esteem, collected \$1,550 for that purpose—\$550 being collected at the mill, and \$1,000 at the mine. An order was immediately sent to W. K. Vanderside & Co., San Francisco, for a suitable service of plate, which the Captain will receive on his arrival at the Bay. D. Tarpey, M. G. Nixon and D. W. Cutts were the committee appointed to collect at the mill, and they did well. The collections and the testimonial show the high regard entertained for Capt. Day by the hands employed by the Meadow Valley Company.

**ASHIM BROS. MODUS OPERANDI FOR THE PEOPLE.**

THE LATEST AND THE BEST. THE BEST QUALITY OF GOODS IN THE MARKET AT ASHIM BROS.

THE LOWEST PRICES. THE NEWEST FASHIONABLE AND SUBSTANTIAL CLOTHING, HATS, BOOTS AND SHOES.

FANCY AND STAPLE GROCERIES FOR FAMILY USE.

MINING OUTFITS A SPECIALTY. HARDWARE AND TINWARE FOR EVERYBODY.

GOODS DELIVERED FREE OF CHARGE TO ANY PART OF THE CITY.

GENTLEMANLY AND POLITE CLERKS TO SHOW GOODS, AND SATISFACTION GUARANTEED.

FOR ANYTHING FROM A KEEN OF THREAD TO A QUARTZ MILL, GO TO THE PIONEER CHIEF HOUSE OF ASHIM BROS.

ASSAULT AND BATTERY.—Yesterday afternoon a case of assault was brought up before Justice Knight. It was a case peculiar to female

assault and battery. Defendants having demanded a jury trial, a venire for 18 jurors was first issued; but many of them were excused, and another venire for 12 jurors was issued. Of the 30 summoned, 11 have been accepted, but not sworn in. A third venire was issued, and 12 more must be summoned and appear on Monday at 2 p. m. As each party has a number of pre-emptory challenges, there is no telling when a jury will be obtained. This is rather farcical, in a general sense, but financially considered it is no joke for the people of the county.

**FRANK BELL,** agent of the Western Union Telegraph Company between this city and Hamilton, informs us that the holes for the poles are all dug; that the poles, with the exception of those for about fifteen miles, are delivered; that the wire from Hamilton is partly strung, and that on Monday a party will commence to string it from this end. The calculation is to have the line completed and in working order in ten days, if not sooner. By making some cut-offs, the distance is reduced to about 113 miles.

**PRES. WAND,** proprietor of the saloon on the corner of Main and Meadow Valley streets, left on yesterday's stage (via Hamilton) for San Francisco, where he journeys to see if the air of the Bay will not restore him to health again. Pres. has been ailing for some months back, and we hope a change of air will be of benefit to him. Business matters also require his presence in San Francisco. We wish him a pleasant trip.

The books of the registry agents have been open since the 9th inst., but qualified voters seem to come in slowly, only eighteen or twenty being registered in Bullionville, and about eighty in Pioche. Voters will bear in mind that it is not necessary to be furnished with a poll-tax receipt before they can register, as that law was abolished by the last Legislature; therefore there is no excuse for not registering immediately.

**JUDGE HADY.**—This well-known gentleman arrived in town yesterday, and was warmly greeted by his many friends. Judge H. was one of the delegates from California to the Democratic National Convention at Baltimore. He looks as if he had fared well in the Monumental City, and speaks of the balneogenesis as the most liberal people he ever met with.

**STATE VS. MORGAN COURTNEY.**—In this case the twelfth juror (in place of D. I. Wilmans, excused on account of sickness) was obtained on Thursday last and the trial immediately proceeded with. The Court has held joint sessions in order to finish the trial as soon as possible. The trial will most probably last another week. The evidence for the prosecution had not been concluded up to time of going to press last evening.

**SOMETHING FOR MINERS.**—We would call the attention of mining foremen and superintendents in Ely District to a new pocket pay table book, by means of which results can be arrived at instantly. The number of days having been ascertained the amount will be found directly opposite that number, already computed. Call at Wiederhold's and examine them. sc15

**ARRIVED.**—Mr. R. A. Keyes, an old pioneer of Pioche, arrived in town yesterday morning via Salt Lake stage line. Mr. Keyes is representing the house of Walker Bros., one of the largest wholesale establishments on the coast. He will remain in our town a few days and will call upon the different mercantile houses.

**JACOB COHN** has just received a fine assortment of clothing and other goods suitable for this market; also, fancy blankets, carriage robes, etc. Parties desiring such articles could do well to give Jake a call, as he informs us that he is selling at San Francisco cost, and guarantees a good article.

**TO TAXPAYERS.**—Notice is given in to-day's paper by the County Clerk that the County Commissioners will meet as a Board of Equalization to-morrow, and continue in session from day to day till Monday, the 7th prox., for the purpose of equalizing the taxes.

**REPUBLICAN EXECUTIVE COMMITTEE.**—The Executive Committee of the Republican Club is requested to meet at Bishop & Sabins' office to-day (Sunday, Sept. 15, 1873,) at 2 o'clock p. m. A prompt attendance of the Committee is requested. W. W. Bishop, Chairman.

**MORE CANDIDATES.**—J. Elnathan Smith adds his name to the list of candidates for County Clerk before the Democratic Convention. Harry A. Fish is announced as a candidate for County Assessor.

**R. B. Ross,** Superintendent of the Chief of the Hill mine, left for San Francisco yesterday, on business connected with that mine. He will be absent about two weeks. J. B. Shaw is acting Superintendent during Mr. Ross' absence.

**SERVICES** at the Catholic Church every Sunday morning and evening. Excellent music will be furnished under the direction of Prof. Nagle, assisted by Mr. Peterson, the violinist. sc15

**CALLED FOR.**—The watch raffled for at Smith & Goodieck's Saloon last week was won by a Mr. Kuhn, who called for and received his valuable prize last Monday.

**NOTICE TO JURORS.**—All jurors not impaneled in the case of the State vs. Courtney are excused until Friday, the 20th inst.

At the "Wilmans House," as good meals are served for 50 cts. as can be had in the city for 75.

A pleasant hour may be passed at Clancy's Saloon, where all the papers are kept on file for the use of patrons. sell

Don't forget that at Wilmans' the best meals can be had obtained for 50 cts.

**DAILY RECORD** on Tuesday next.

**ALL KINDS** of goods and services available.

**BISHOP BROS.** have just received a large and fine assortment of Perfumery, Toilet and Fancy Articles, such as Ferina, Pinard and Wright's Cologne, Lubin's and Phalon's Extracts, Florida Water, Pomades, Hair Oil, Cold Cream, Creme de la, Laird's Bloom of Youth, Bazin's Tooth Paste, Steinberger's Glycerine, Honey and Elder Flower Soap, Lubin's Soaps, etc., etc., which, together with a full stock of Chemicals and Medicines, they are selling at the lowest market prices.

**WILSON & SOLOMONS,** in Fulk & McAlpin's saloon are in constant receipt of full supplies of news matter of all kinds from the East and West, and stationery of every variety they keep always on hand. They also make a specialty of cigars and tobacco and their brands of these articles are not surpassed by any firm in town. For the accommodation of the reading public they also keep a fine circulating library.

**IN ALL CASES,** of whatever nature, Dr. D. H. Whipple guarantees a sure cure. In cases of venereal diseases, piles of long standing, chronic diseases, etc., a cure is effected without the use of mercury. He cures piles in a short space of time. Consultation strictly confidential. Office at Mrs. Pyles' Lodging House—Room No. 5.

**A CIRCULATING LIBRARY** affords a cheap means of obtaining good reading matter, and at a trifling expense. C. Weiderhold furnishes novels and standard works for 25 cents. He also keeps on hand stationery, cigars, tobacco and smokers' materials. His establishment is on Main street, opposite Meadow Valley.

**ATTEND TO YOUR TEETH;** don't wait until they ache and then in language of regret say you would give most anything to save them. Go at once to Dr. Nichols, Main street, and avoid sleepless nights. Save your stock of patience and, what nature intended, your teeth. sc8

**CIRCULATING LIBRARY.**—Folk & Levin on Main street have just received the latest and best publications at their extensive circulating library, and they offer it to the public at 25 cents per volume. Call and see them.

**TRAVIS BROS.** are up with the times in the lively business. In addition to their establishment in this place, they have an exchange stable at Bullionville. Patrons will be properly served at either establishment. sc1

**POSTPONEMENT.**—The raffle for a gold watch and chain that was to have come off at the Hamilton Saloon last week has been postponed until Sunday evening, the 15th inst. sell-21

**CUTTING & CO.'S** California Canned Fruits, Jellies and Jams are far superior to all other brands. For sale by all first-class grocers.

No. 1 cooks and gentlemanly waiters at Wilmans'.
